1. Introduction

Corporate governance is a set of systems, policies and procedures which define the way in which a company is governed. It establishes the objectives of a company ensuring that the administration and management of a company is undertaken in a manner which is consistent with the interests of the company's Shareholders. Additionally, it establishes a system for monitoring and evaluating the achievement of those objectives.

The ASX Recommendations define corporate governance as "the framework of rules, relationships, systems and processes within and by which authority is exercised and controlled in corporations".

Corporate governance policies will vary from company to company as there is no single system of corporate governance that is applicable to all companies. A company must establish systems, processes and policies that help it achieve its objectives in light of the nature and size of that company.

As a result, the Company has adopted a number of policies to ensure that it has high-quality and transparent systems of corporate governance in place. These policies are incorporated in this Charter and are prepared in line with the ASX Recommendations.

The Charter incorporates the following:

- (a) Board Policy;
- (b) Continuous Disclosure Policy;
- (c) Code of Conduct;
- (d) Share Trading Policy; and
- (e) Insider Trading Policy.

2. Board Policy

2.1. Introduction

The conduct of the Board is governed primarily by the Company's Constitution. This policy aims to set out the practices that the Company has established and to which the Board and each Director is committed. This policy is simply an aid to the Board and the Directors. In the course of undertaking its responsibilities, the Board at all times must act in a manner that is consistent with its duties and obligations as imposed by the Company's Constitution, the ASX Listing Rules and by the law. Should there be any inconsistency between this policy and the Constitution, the Constitution shall prevail.

2.2. Responsibilities

The Board is responsible for the overall operation, strategic direction, leadership and integrity of the Company and in particular, is responsible for the Company's growth and profitability. In meeting its responsibilities the Board shall undertake the following functions:

(a) Strategic direction

- (i) Providing and implementing the Company's strategic direction.
- (ii) Directing and monitoring the Company's performance against strategies and business plans.
- (iii) Approving and monitoring capital management and major expenditure and investments.

(b) Risk management and reporting

- (i) Reviewing and overseeing the operation of systems of risk management ensuring that the significant risks facing the Company are identified, that appropriate control, monitoring and reporting mechanisms are in place and that risk is appropriately dealt with.
- (ii) Monitoring and appraising financial performance including the approval of annual and half year financial reports and liaising with the Company's auditors.
- (iii) Liaising with the Manager to identify and manage risk.
- (iv) The Manager is responsible for preparing the declaration pursuant to Section 295A of the Corporations Act as the Company does not have a chief executive officer (or equivalent) or a chief financial officer (or equivalent). Accordingly, the Board will seek to procure that the Manager puts in place sound systems of risk management and internal controls and ensure that the systems are operating effectively in all material respects in relation to financial reporting risks.
- (v) Ensuring that Shareholders and the market are kept fully informed with timely and relevant information which is in accordance with the continuous disclosure provisions outlined in Section 3.

(c) Management

- (i) Monitoring and assessing the performance of the Manager and ensuring that their actions are consistent with corporate strategy.

- (ii) Ensuring that appropriate and effective remuneration packages and policies are implemented by the Company.
- (iii) Monitoring and reviewing business results, outsourced service providers and the Board itself.
- (iv) Ensuring the Board is comprised of individuals who are best able to discharge the responsibilities of directors having regard to the law and the best standards of governance.

(d) Remuneration

- (i) The Company recognises the ASX recommendation with respect to distinguishing the structure of non-executive directors' remuneration from that of executive directors and senior executives. However, as the Company's Board comprises of non-executive directors only. Accordingly, this recommendation does not apply to the Company.
- (ii) The allocation and amount of remuneration for non-executive directors will be reviewed every year and will reflect market rates.

(e) Performance

- (i) Formation and monitoring of corporate governance policies and codes of conduct.
- (ii) Undertaking an annual performance evaluation of the Board in light of this Charter.
- (iii) Reviewing and overseeing internal compliance and legal regulatory compliance.

(f) Corporate governance

- (i) Ensuring compliance with the Company's Constitution and with the continuous disclosure requirements of the ASX Listing Rules and the Corporations Act.
- (ii) Communicating with and protecting the rights and interests of all Shareholders.

2.3. Board Composition

The composition of the Board is determined as follows:

- (a) The Company's Board shall comprise of a minimum of (3) directors.
- (b) The Board must be comprised of members with expertise, experience and skill relevant to the business of the Company.
- (c) Currently, 2 of the Directors are independent. The Board is of the view that the number of independent directors is appropriate for the size, nature and complexity of the business. Maximilian Walsh is the non-executive Chairman and is associated with the Manager. The Board has determined that Mr Walsh's experience as a director and chair is of benefit to the Company and given the Company's size there are no immediate plans to appoint an independent non-executive Chairperson.
- (d) Should Shareholders approve a change of activities and scale of the Company, this will be reviewed with a view to increasing the ratio and number of independent Directors. The composition of the Board is subject to Shareholder approval.

2.4. Diversity

The Company is committed to diversity in the composition of the Board. In this regard, noting the current composition of the Board is all male, the Company's objective is to seek a female director who can add to the skill set of the Company's Board as the need arises. The Company will review if it is commercially viable to appoint an additional director subject to the amount of assets under management.

2.5. Independence

The ASX Recommendations establish a number of factors that may be considered when assessing the independence of directors. The factors are whether a director:

- (a) is a substantial shareholder of the Company or an officer of, or otherwise associated directly with, a substantial shareholder of the Company;
- (b) is employed, or has previously been employed in an executive capacity by the Company or another group member, and there has not been a period of at least 3 years between ceasing such employment and serving on the Board;
- (c) has within the last 3 years been a principal of a material professional advisor or a material consultant to the Company or another group member, or an employee materially associated with the service provider;
- (d) is a material supplier or customer of the Company or other group member, or an officer or otherwise associated directly or indirectly with a material supplier or customer;
- (e) has a material contractual relationship with the Company or another group member other than as a director.

The ASX Corporate Governance Council Implementation Review Group (**Review Group**) on 31 March 2004, noted that the criteria referred to in the ASX Recommendations above:

"are to be used as initial indicators of matters which might interfere with independence and should be used by the Board as a trigger for their assessment and as a framework for the disclosure of their reasoning in relation to a determination of independence".

These factors are only indicators of matters in which to assess the independence of a Director. The Board will assess the independence of each Director in light of the interests disclosed by them. The Board's assessment of the independence of Directors will be disclosed in the Company's future annual reports.

2.6. Committees

The Company recognises the ASX Recommendations with respect to establishing audit, remuneration and nomination Committees as good corporate governance. However, considering the size of the Company, the functions that would be performed by these Committees are best undertaken by the Board. This is also in line with ASX Recommendations which recognise that "the ultimate responsibility of the integrity of a company's financial reporting rests with the full board".

The Board will review its view on Committees in line with the ASX Recommendations and in light of any changes to the size or nature of the Company and if required may establish committees to assist it in carrying out its functions. At that time the Board will adopt a charter for such Committees in accordance with the ASX Recommendations and industry best practices.

2.7. Appointment and Retirement

Appointment

The Board will consider the appointment of a Director as and when a vacancy arises in accordance with the following considerations:

- (a) the skills, expertise and experience of any proposed Director;
- (b) the relevant and appropriateness of these skills, expertise and experience when compared to those of the current Board;
- (c) the terms of appointment must be recorded in a letter of appointment taking into consideration the ASX Recommendations; and
- (d) the terms of appointment must be in accordance with the Company's Constitution, the Corporations Act and the Listing Rules.

Retirement

A Director must retire in accordance with the Corporations Act and the Company's Constitution. A Director may be re-elected if the Constitution permits.

2.8. Performance, Training and Advice

The performance of Directors shall be assessed and reviewed by the Board.

In the performance of their duties as Directors, the Directors have a right to seek independent legal or other professional advice at the Company's expense.

Meetings and Company Secretary

Board meetings shall be held in accordance with the Company's Constitution. The Company Secretary is responsible for circulating to the Board all board papers in advance of any proposed meeting.

The Company Secretary is also responsible for monitoring this charter and ensuring that all agendas, and other materials are despatched to the Board and that all notices are brought to their attention.

2.9. Ethical standards and Share Trading

The Directors must perform their duties in line with the Company's objectives and with the utmost integrity. Furthermore, the Directors must comply with the Company's Code of Conduct, Share Trading Policy and Insider Trading Policy as set out in Sections 4, 5 and 6 of this Charter.

3.1. Introduction

- (a) ensure that information issued by the Company is issued to Shareholders and the market in a timely manner;
- (b) to promote investor confidence in the integrity of the Company and its securities; and
- (c) to generally promote investor protection and protection of the market.

3.2. Continuous Disclosure

An ASX listed company is subject to the continuous disclosure requirements under the Corporations Act and the Listing Rules, in addition to the periodic and specific disclosure requirements in the Listing Rules.

The continuous disclosure obligation is contained in Listing Rule 3.1 which states that a company must disclose information to the ASX where:

- (a) the Company (a director, executive or other member of management) has information (or becomes aware of information) which is not publicly available; and
- (b) the information is information that a reasonable person would expect, if it were publicly available, to have a material effect on the price or value of the securities of a Company.

Contravention of this obligation can extend to a person (director or executive) who is involved in a contravention of the continuous disclosure regime by a Company.

3.3. Disclosure exception

The continuous disclosure obligation is not applicable where:

- (a) a reasonable person would not expect the information to be disclosed;
- (b) the information is confidential and the ASX has not formed the view that the information has ceased to be confidential;
- (c) one or more of the following applies:
 - (i) it would be a breach of a law to disclose the information;
 - (ii) the information concerns an incomplete proposal or negotiation;
 - (iii) the information comprises matter of superstition or is insufficiently definite to warrant disclosure;
 - (iv) the information is generated for internal management purposes of the Company;
 - (v) the information is a trade secret.

To rely on the exception, the above 3 requirements must be satisfied. Should one of the exceptions no longer be applicable then the Company can no longer rely on these exceptions and must disclose the information immediately to the market.

3.4. Compliance

The Company will ensure compliance with this Charter and will disclose:

- (a) price sensitive information to the ASX as soon as it becomes aware of that information;
- (b) ensure that the information is not false, misleading or deceptive so as to avoid creating what would constitute a false market; and
- (c) ensure that the information is disclosed clearly (expressed objectively), accurately and is complete.

In doing so the Company will ensure compliance with Listing Rule 15.7 that requires an entity not to release information to anyone until it has given the information to the ASX and has received an acknowledgement from the ASX that the information has been released to the market.

3.5. Price Sensitive Information

The Company will ensure that all price sensitive information is released to the market in accordance with the Listing Rules and in accordance with the Announcements Procedure in Section 3.9 of this Policy.

Price sensitive information is information that:

- (a) a reasonable person would expect will have “a material effect on the value or price” of securities; and
- (b) if the information were publicly available “would, or would be likely to, influence persons who commonly invest in securities in deciding whether to acquire or dispose of” those securities.

Price sensitive information includes information relating to a takeover bid or a merger, proposed acquisition or disposal of a material asset, material variations in earnings or profits from previously published forecasts, a material change to the business plan, loss of a material contract and major litigation.

3.6. Loss of Confidentiality

Where confidentiality is lost as a result of a specific rumour or media comment then the Company will respond to media speculations to the extent that such responses are required to correct or prevent a false market. In determining whether confidentiality is lost the Company will look at previous announcements it had made and will consider any likely reaction of the market or particular investors to such speculation.

3.7. Administering Corporate Governance Compliance

This policy will be administered by the Board of the Company and key personnel as follows:

- (a) the Board will be involved in reviewing significant ASX announcements and ensuring and monitoring compliance with this policy;

- (c) if an announcement of price sensitive information is required the Company Secretary will prepare a draft announcement;
- (d) the Company Secretary will provide the draft announcement to the Board for approval;
- (e) following the approval of an announcement of price sensitive information by the Board, the Company Secretary will then lodge the announcement with the ASX electronically;
- (f) after receiving acknowledgement from the ASX that the announcement has been released the Company Secretary will ensure the announcement is accessible from the Company's website. This will be done within 24 hours of receiving that acknowledgement.

3.10. No Comments Policy

The Company has adopted a "no comments" policy in relation to any market speculation or rumours and this policy must be observed by all employees at all times. In light of this, the Company may issue

an announcement in response to a market speculation or rumour where it is necessary to do so to eliminate the possibility of a false market or contravention of the Listing Rules.

Where an employee is approached by the media, any analysts or other external parties with respect to providing any information about the Company, the general policy to be observed is a “no comments” policy and that employee will notify the Company Secretary as soon as possible.

As part of the Company’s management of investor relations it may conduct briefings with analysts or investors from time to time. However, the Company’s policy for conducting these briefings will be to ensure that no material price sensitive information is announced prior to it being announced to the market. No briefing will be held during the pre-results periods. In addition, a procedure will be in place for the conduct of the briefings which will include that at any briefing a director, or representative of the Manager must be present; notes of the briefing must be kept by an employee attending and any information to be used at briefings must be signed off by the Board prior to the briefing. Where in the course of a briefing a question is raised that refers to price sensitive information that has not been previously disclosed the Company employee must decline to answer the question but take the question on notice and advise the Board and the Company Secretary of the question.

3.11. Responding to Analyst Reports and Forecasts

If a draft report has been sent to the Company for comments the report should be forwarded directly to the Company Secretary. The Company will not endorse any reports, and will restrict any comments to factual matters and matters which have been previously disclosed to the ASX. See the Insider Trading Policy (Section 6) for further details.

3.12. Trading Halts

The Company in certain circumstances may need to request a trading halt from the ASX. The Chairman in consultation with the Board will make decisions in relation to trading halts and the only personnel authorised to request a trading halt on behalf of the Company will be the Chairman and the Company Secretary.

3.13. Advisors

To ensure compliance with its listing obligations the Company may from time to time require advisors to advise on its adherence to this policy. The Company may ask such advisors to sign a confidentiality agreement before disclosing any information to them.

3.14. Contravention of Policy

Non-compliance with the continuous disclosure obligations may constitute a breach of the Corporations Act and the Listing Rules. This may result in fines for the Company, personal liabilities for Directors and other officers and damage to the Company’s reputation. The Company takes continuous disclosure very seriously and will not tolerate any deviation from this policy by any employee and will take disciplinary action against any employee where a contravention arises. Disciplinary action may include dismissal.

3.15. Shareholder Communications

The Board aims to keep Shareholders informed of all major developments affecting the Company’s activities and its state of affairs through announcements to the ASX, releases to the media and dispatch of financial reports. The Directors of the Company are required to complete, or request that the Company Secretary complete necessary forms to be filed with the ASX in respect of their shareholding in the Company for the purposes of Section 205G of the Corporations Act and Listing Rule 3.19A.

6. Insider Trading Policy

6.1. Policy

The Board of the Company has established the following Insider Trading Policy to apply to trading in the Company's shares on the ASX.

This policy applies to all Directors, senior management and employees of the Company. All Directors, senior management and employees of the Company must not deal in the Company's shares while in possession of price sensitive information.

In addition, the general Share Trading Policy (see above) sets out additional restrictions which apply to Directors and senior management of the Company.

The law imposes a number of significant restrictions on employees of the Company when they deal in their Company's shares. As fiduciaries, these persons must not utilise their position for their own gain or for the gain of any person other than the Company.

The Corporations Act imposes severe penalties (both criminal and civil) on persons who conduct insider trading activities. Any perception of improper conduct by employees of the Company also has the potential to substantially damage the Company's reputation.

The Company has established the policy set out in this document in an effort to prevent the incidence of insider trading in the Company's shares. The policy provides a general summary of the law in Australia in relation to insider trading, and as such operates in addition to the legal requirements. It is the personal responsibility of each Director, Executive and employee to comply with this policy.

6.2. Overview of the insider trading provisions in the Corporations Act

It is illegal for anybody to deal in any shares of a body corporate (including the Company), when in possession of information that the person knows, or ought reasonably to know:

- (a) is not generally available (including information that the Company has not disclosed to the market in accordance with the Company's Continuous Disclosure Policy); and
- (b) might have material effect on the price or value of those shares if it was generally available (Inside Information).

This prohibition extends to procuring another person to deal, and, in the case of shares of listed corporations, extends to communicating the inside information to another person, if the person knows, or ought reasonably to know, that the other person would, or would be likely to, deal in the shares in question or procure another person to do so. To communicate Inside Information to another person is also an offence which carries both civil and criminal penalties.

An employee or officer in possession of Inside Information about the Company has a duty to keep that information confidential and must not in any way disclose or communicate that information to any person.

6.3. Dealing with security analysts, institutional investors and journalists

An employee or officer may be exposed to others outside the Company such as security analysts, institutional investors and journalists. It is important that all Directors, Executives and employees be aware that selective disclosure of non-public information may result in a breach of the insider trading rules.

It is important to emphasise that it is the mere fact of conveyance of the material non-public information that gives rise to liability, not the manner in which it is conveyed.

It is possible to convey information in breach of this policy and the Corporations Act by expressing subjective attitudes about the Company's performance or by calling attention to selective information not available as an aggregate to the general public. It is essential to avoid the indirect conveyance of information by any means whatsoever.

If during the course of a discussion with any analyst, journalist or other outsider, material non-public information concerning the Company is disclosed, inadvertently or otherwise, the recipient of the information should be informed of its non-public nature and cautioned against its use unless and until the Company has made full public disclosure of the information. The Company Secretary should be notified of the situation immediately so that a decision can be made regarding disclosure of the information.

No public comments should be made regarding any previously undisclosed operating results or other developments unless authorised by the Company.
